Application No. 10/042,196

Reply to Office Action of May 6, 2003

Amendment Filed: July 7, 2003

This listing of claims will replace all prior versions, and listings, of claims in the

application:

Claims 1-4 (Canceled)

Claim 5. (Original) A surface acoustic wave device comprising a plurality of surface

acoustic wave elements, each having a comb electrode formed on a piezoelectric substrate and

connection terminals connected to the comb electrode; and a package which has a die attach

surface to which each of the connection terminals is joined or bond3ed through a boding

member, and in which said plurality of surface acoustic wave elements are housed side by side.

Claim 6. (Original) A surface acoustic wave device according to claim 5, wherein said

plurality of surface acoustic wave elements include a surface acoustic wave element having a

frequency characteristic different from that of other surface acoustic wave elements.

Claim 7. (Original) A surface acoustic wave device according to claim 5, wherein the

connection terminal is formed into an elongated shape which is shorter along a direction in

which said surface acoustic wave elements are juxtaposed.
